Rights & Responsibilities of Patients

These are detailed more fully in our Practice's Patients' Charter which is available on request .

As a patient you have the right to:

- be offered a health check on joining a surgery for the first time
- have appropriate drugs and medicine prescribed
- be referred to a consultant acceptable to you when your doctor thinks it is necessary and to be referred for a second opinion if you and your doctor agree this is desirable

As a patient you have a responsibility to:

- use the service we provide in a responsible way
- keep appointments, or give adequate notice if you wish to cancel

For many problems, part of the solution may rest in the patient's hands, e.g. stopping smoking, changing diet, weight reduction. It is important for you to fulfil this part of your treatment if it is advised.

We ask the staff to treat you with courtesy and friendliness, and would ask you to treat all of our staff in the same way.

Abusive or Violent Patients

Doctors have the right to ask the Local Health Board to remove patients from the practice list if they are violent in anyway towards doctors, staff or any other persons on practice premises. All incidents will be reported to the police.

Comments/Concerns

The Practice operates a formal internal concern procedure. If you have a concern or would like to make a comment, please write to:
The Practice Manager, The Surgery, Glandwr Parc, Builth Wells, Powys LD2 3DZ

The same system allows doctors and staff to record concerns against patients.

Advice can be requested from reception if patients are unsure of any procedures not listed in this information leaflet.

Home Visits

Whilst we encourage our patients to come to the surgery, where we have the proper equipment and facilities available, we do appreciate this is not always possible. In this respect, if you do need a home visit, you can help us by calling reception before 10.30am. You may only request a home visit if you are housebound or are too ill to visit the practice. Your GP will only visit you at home if they think that your medical condition requires it and will also decide how urgently a visit is needed. Please bear this in mind and be prepared to provide suitable details to enable the doctor to schedule house calls.

Surgery Access

The public areas of both surgeries are single storey and can accommodate wheelchairs. Toilets with access for the disabled are available. If you have any particular problems, the reception staff will be glad to help.

Fees

Some services are not covered by the NHS and a fee will be charged. For example:

- Accident & sickness insurance medical and reports
